SCIENCE CENTER TO EXPLORE THE SCIENCE OF BEER

21+ NIGHT TO FEATURE BEER SAMPLES FROM LOCAL BREWERIES

PITTSBURGH, Aug. 4, 2015 — An extra-special 21+ Night at Carnegie Science Center will explore the science of beer on Friday, Aug. 14, from 6 – 10 pm. Visitors to the adults-only evening can use their souvenir glass commemorating the event to sample 10 beers from eight local breweries.

Learn about the wild side of beer with a presentation from Draai Laag Brewing Company on Wild Beer.

Keeping with the bubbly beer theme, guests can learn more about bubbles at BubbleMania, Casey Carle's stage show that combines science, art, and comedy. The show will explore how bubbles form, why they're spherical, how to make a cube bubble, and the science of bubble bursting – each topic related to the physical laws of the natural world.

Local band “Daily Grind” will perform. As always, 21+ Night features cash bars, snacks available for purchase, and the chance to experience four floors of hands-on exhibits – with no kids! Participants get a discount on laser shows that evening.

Proper identification is required, and all guests must show ID at the door. Tickets cost $19 and must be purchased in advance online or by phone (412.237.3400, then press 7). Event capacity is limited.

21+ Nights are sponsored by Mazda, Macy's, and Q-92 FM.

About Carnegie Science Center

Carnegie Science Center is dedicated to inspiring learning and curiosity by connecting science and technology with everyday life. By making science both relevant and fun, the Science Center’s goal is to increase science literacy in the region and motivate young people to seek careers in science and
technology. One of the four Carnegie Museums of Pittsburgh, the Science Center is Pittsburgh’s premier science exploration destination, reaching more than 700,000 people annually through its hands-on exhibits, camps, classes, and off-site education programs.

**About Carnegie Museums of Pittsburgh**

Founded by Andrew Carnegie 120 years ago, Carnegie Museums of Pittsburgh is a collection of four distinctive museums dedicated to exploration through art and science: Carnegie Museum of Art, Carnegie Museum of Natural History, Carnegie Science Center, and The Andy Warhol Museum. The museums reach more than 1.3 million people a year through exhibitions, educational programs, outreach activities, and special events.
