VETERANS, ACTIVE MILITARY SEE ‘D-DAY’ FREE ON ARMED FORCES DAY

ARMED FORCES DAY IS RECOGNIZED ON SATURDAY, MAY 16

PITTSBURGH, May 7, 2015 – In honor of Armed Forces Day, active members and veterans of the U.S. military can receive a free ticket to see D-Day: Normandy 1944 at the Rangos Omnimax Theater at Carnegie Science Center on May 16 by presenting their military ID at the ticket counter (one ticket per person).

Additionally, throughout the run of the movie, active members and veterans who are seeing the movie receive $1 off the price of any size popcorn.

D-Day: Normandy 1944, narrated by Tom Brokaw, tells the story of June 6, 1944 – the largest Allied operation of World War II in Normandy, France. It explains in detail why and how this region became the most important location in the world during the end of 1943 through August 1944.

D-Day: Normandy 1944 blends various filming techniques, such as computer-generated imagery, archival photos, animated cartography, aerial footage, and live action re-enactments. The film explains D-Day and the Battle of Normandy through five chapters, including the importance of the operation, how it was carried out, and its legacy. Pascal Vuong is director and writer.

“Family audiences the world over will discover exactly why and how, from the end of 1943 through August 1944, history was defined in this region of France,” Vuong said. “And why, 70 years later, we in the western world should all be grateful to those who gave everything, including their lives, for our Liberty.”

D-Day: Normandy 1944 opens Friday, May 15, at the Science Center and is sponsored locally by Baierl Subaru.

About Carnegie Science Center

Carnegie Science Center is dedicated to inspiring learning and curiosity by connecting science and technology with everyday life. By making science both relevant and fun, the Science Center’s goal is to increase science literacy in the region and motivate young people to seek careers in science and technology. One of the four Carnegie Museums of Pittsburgh, the Science Center is Pittsburgh’s premier science exploration destination, reaching more than 700,000 people annually through its hands-on exhibits, camps, classes, and off-site education programs.

About Carnegie Museums of Pittsburgh

Founded by Andrew Carnegie 120 years ago, Carnegie Museums of Pittsburgh is a collection of four distinctive museums dedicated to exploration through art and science: Carnegie Museum of Art, Carnegie Museum of Natural History, Carnegie Science Center, and The Andy Warhol Museum. The museums reach more than 1.3 million people a year through exhibitions, educational programs, outreach activities, and special events.
