EXPLOR

THE SECRET LIVES OF MOLE SALAMANDERS AT SCIENCE CENTER’S

CAFÉ SCIENTIFIQUE

LEARN ABOUT THE ECOLOGY OF THE AQUATIC AND TERRESTRIAL LIFE STAGES OF
AMPHIBIANS FOUND IN WESTERN PENNSYLVANIA

PITTSBURGH, April 26, 2018 — Explore the ecology of the aquatic and terrestrial life stages of mole salamanders at Carnegie Science Center’s next Café Sci event. On Monday, May 7, from 7–9 pm, join Dr. Kurt Regester, Associate Biology Professor at Clarion University of Pennsylvania, as he discusses the history of the most secretive salamanders and talks about their roles in ecosystem energy flow.

During his presentation, Regester will talk about the array of adaptations associated with mole salamanders’ reproduction and survival, as well as the decline of amphibian diversity around the world.

Regester earned his PhD in Zoology from Southern Illinois University. Prior to his graduate studies, he worked as an Animal Program Supervisor at the Discovery Science Center in California, and as Curator of Education at the Nashville Zoo in Tennessee.

At Clarion, he teaches concepts in zoology, wildlife ecology, population biology, animal behavior, and ornithology. Regester also instructs the field-based course, “Ecology of Amphibians and Reptiles” at the University of Pittsburgh’s Pymatuning Laboratory of Ecology.

Regester’s work has been published more than 25 times in journals such as Oceologia, Freshwater Biology, and Copeia.

Admission to Café Sci is FREE. Food and drinks are available for purchase. The doors to the event open at 6 pm for networking and refreshments, and the event lasts from 7–9 pm. The evening includes time for informal discussion, eating, and drinking with a cash bar.
For more information and to register, visit CarnegieScienceCenter.org or call 412.237.3400.

Café Sci is presented by PPG and sponsored by Green Mountain Energy.

**About Carnegie Science Center**

Carnegie Science Center is dedicated to inspiring learning and curiosity by connecting science and technology with everyday life. By making science both relevant and fun, the Science Center’s goal is to increase science literacy in the region and motivate young people to seek careers in science and technology. One of the four Carnegie Museums of Pittsburgh, the Science Center is Pittsburgh’s premier science exploration destination, reaching more than 700,000 people annually through its hands-on exhibits, camps, classes, and off-site education programs.

**Accessibility: Features for All**

Carnegie Science Center welcomes all visitors. We work to assist visitors with disabilities in obtaining reasonable and appropriate accommodations, and in supporting equal access to services, programs, and activities. We welcome visitors in wheelchairs on the deck of our USS Requin (SS 481) submarine. Below-deck visits require full mobility. Hearing assistance devices are available for The Rangos Giant Cinema. Please ask when you buy your ticket.

Please note that requests for accommodations should be made at least two weeks prior to your visit. For specific questions about wheelchairs, strollers, or other programmatic or equipment needs, see the ticket counter located on the first floor of the main building or contact Customer Service at 412.237.1641 or info@carnegiesciencecenter.org. Please contact Carnegie Museums of Pittsburgh’s Accessibility Coordinator with concerns regarding accessibility for visitors with disabilities at the museums. On weekdays, call 412.622.6578 or email accessibility@carnegiemuseums.org.

**About Carnegie Museums of Pittsburgh**

Established in 1895 by Andrew Carnegie, Carnegie Museums of Pittsburgh is a collection of four distinctive museums: Carnegie Museum of Art, Carnegie Museum of Natural History, Carnegie Science Center, and The Andy Warhol Museum. In 2017, the museums reached more than 1.4 million people through exhibitions, educational programs, outreach activities, and special events.
