FREE summer camps that spark interest in science, technology, engineering, and math (STEM) are being offered in your neighborhood this summer!

Project Lead the Way Gateway to Technology

Through exciting hands-on activities, students in grades 6 through 8 will explore mechanical systems; automation and robotics; and 3D design and modeling.

These fun and engaging camps offer hands-on projects that inspire “aha! moments,” as well as deep comprehension.

Three locations offer students the opportunity for workshops. Students can attend either week, or both weeks at their local venue. Lunch is included for all campers.

Wheeling Bridge Street Middle School

19 Junior Avenue, Wheeling, WV 26003
