

ONE OF THE FOUR CARNEGIE MUSEUMS OF PITTSBURGH

Weddings

# CARNEGIE SCIENCE CENTER

**Located just minutes from downtown Pittsburgh on the North Shore of the Ohio River, Carnegie Science Center is the perfect event venue.**

**Each one of our unique spaces features a distinctive ambiance and interactive opportunities to help you create an unforgettable occasion.**

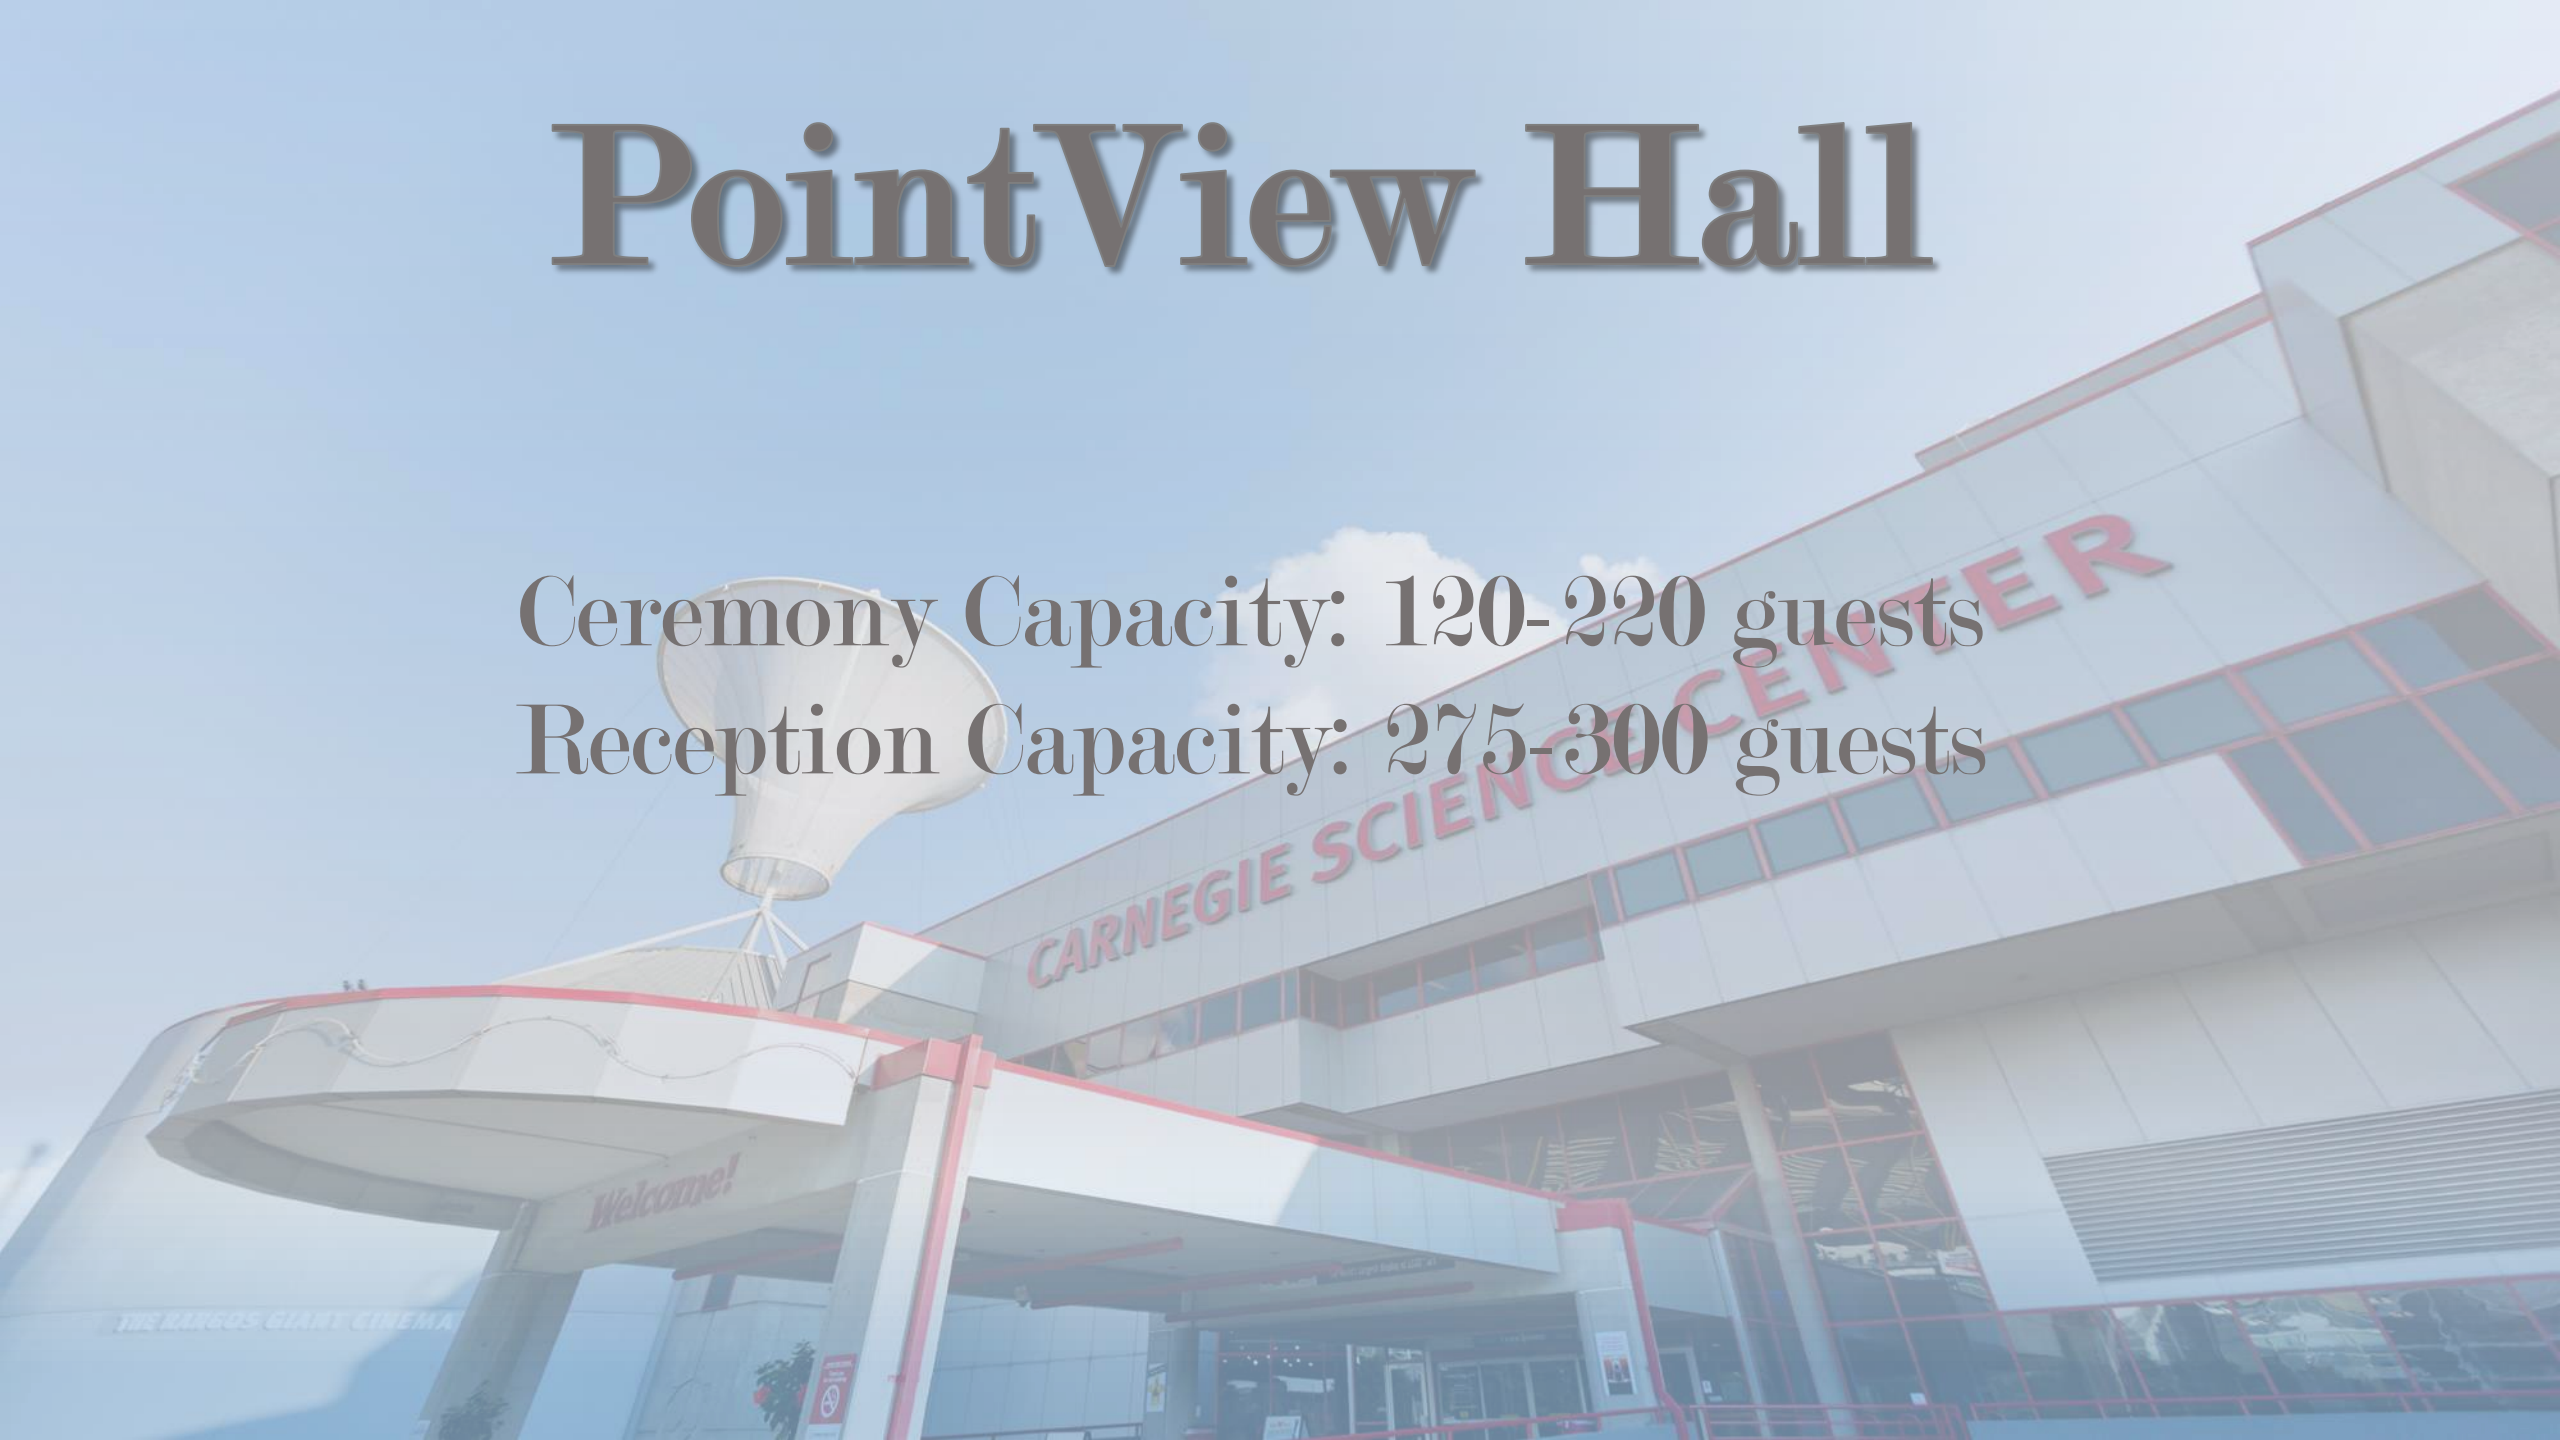

# PointView Hall

Ceremony Capacity: 120-220 guests

Reception Capacity: 275-300 guests

# PointView Hall

Couples are choosing our newest space, PointView Hall, for its unique, modern style with an unparalleled view of the city through its floor-to-ceiling windows.

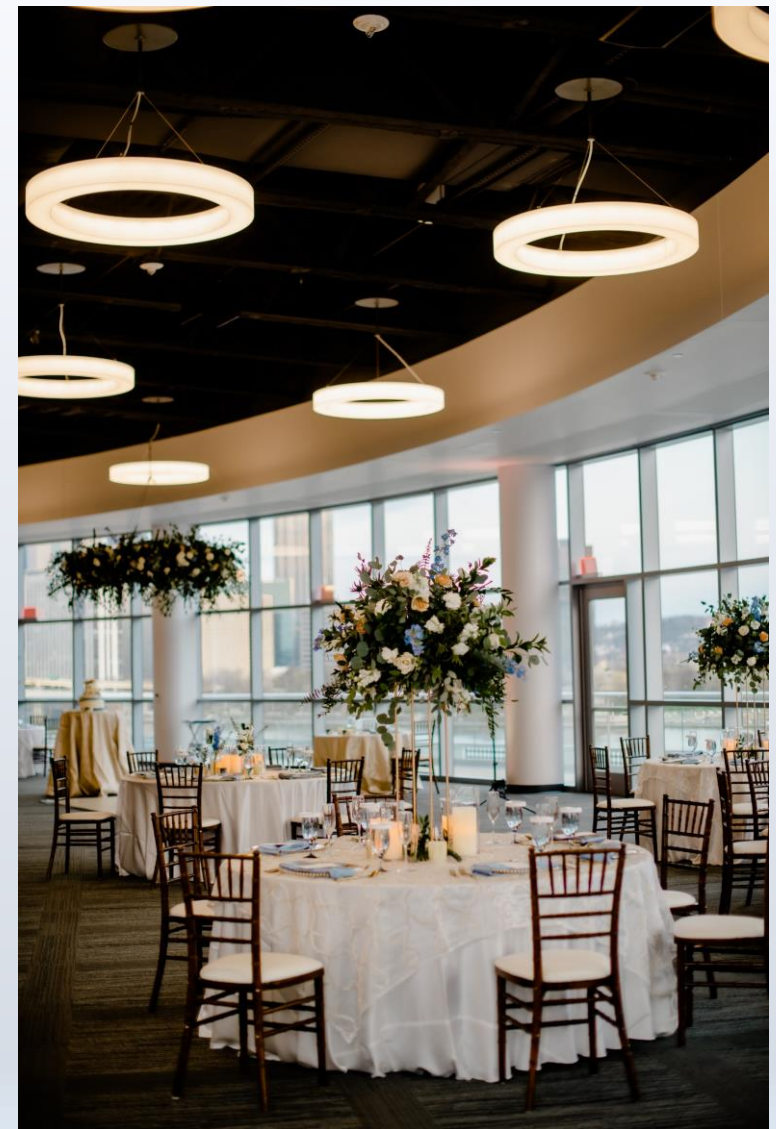

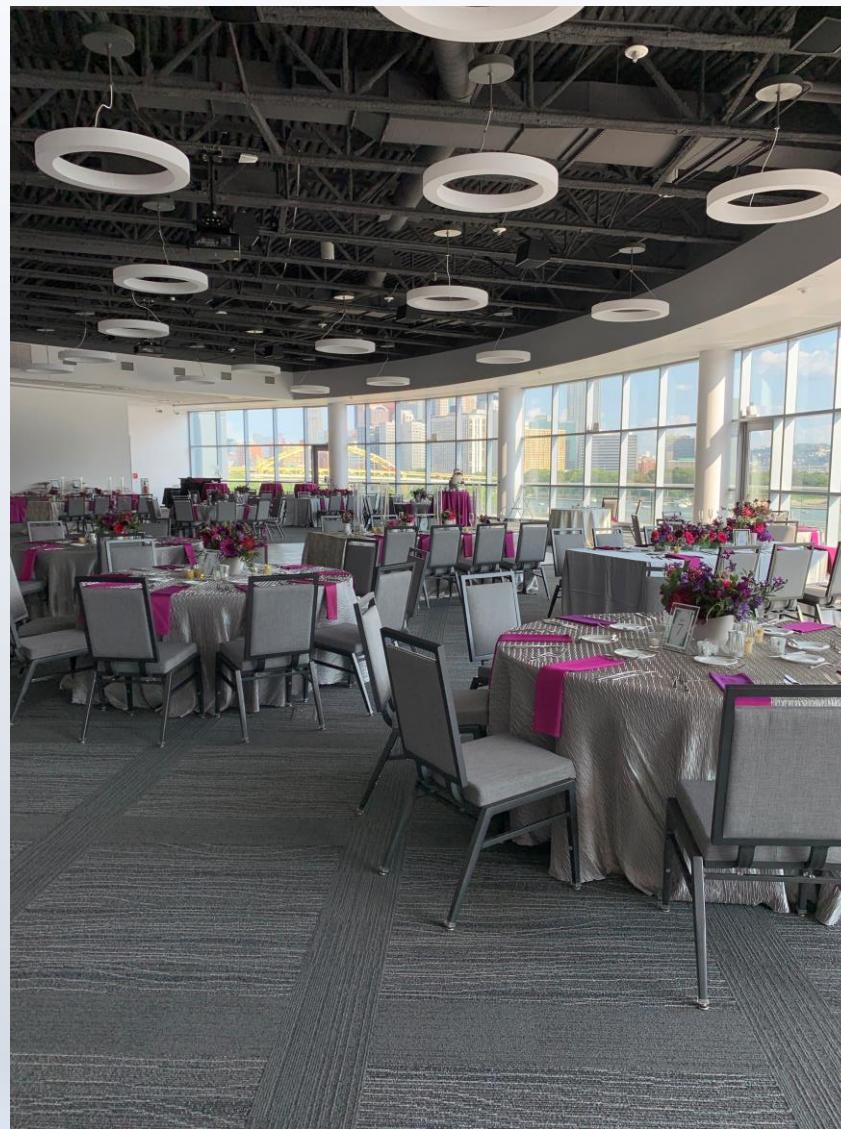

The stunning view of the skyline from the terrace adds an air of sophistication to our space that you won't find in any other venue in Pittsburgh.

In-house chairs, shown above— included in rental fee!

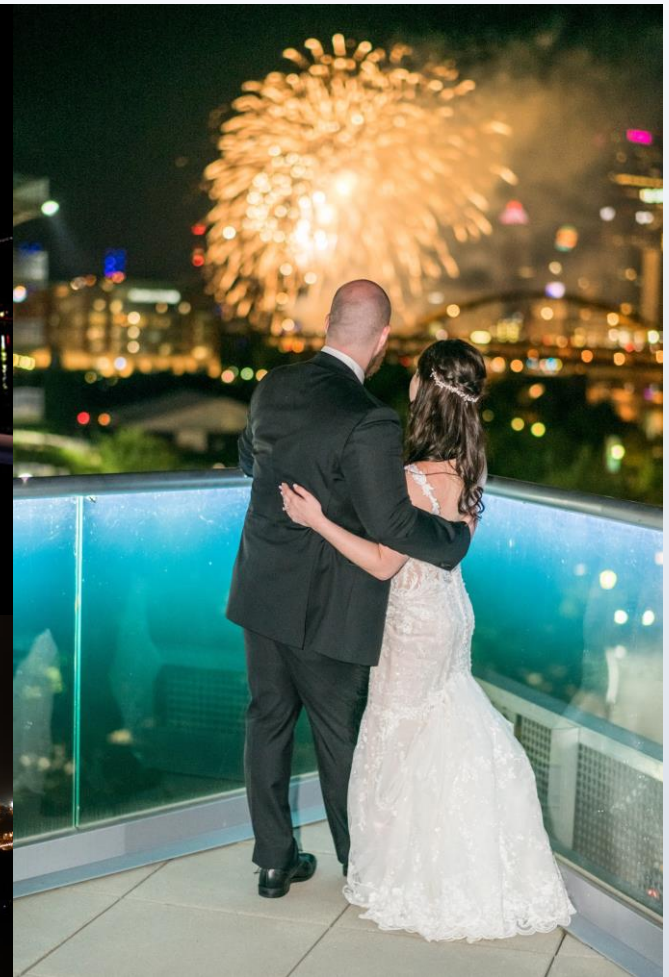

Take advantage of our built-in hooks in the ceiling and hang gorgeous floral or eye-catching chandeliers.

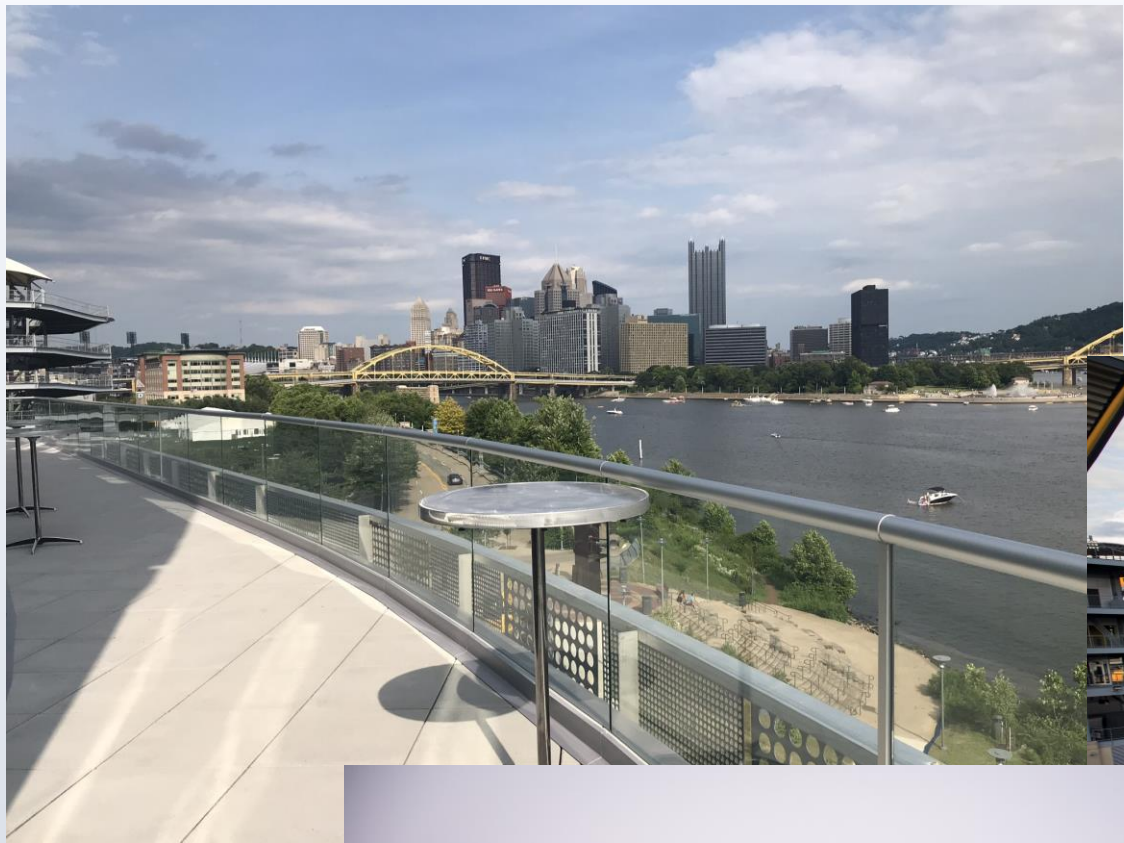

(Don't know who to get these from? We have vendor recommendations!)

PointView Hall provides a neutral backdrop that can accommodate any wedding style.

Guests will love the perfect view of the Pittsburgh city skyline. Bonus: it is the perfect spot for a jaw-dropping newlywed photo!

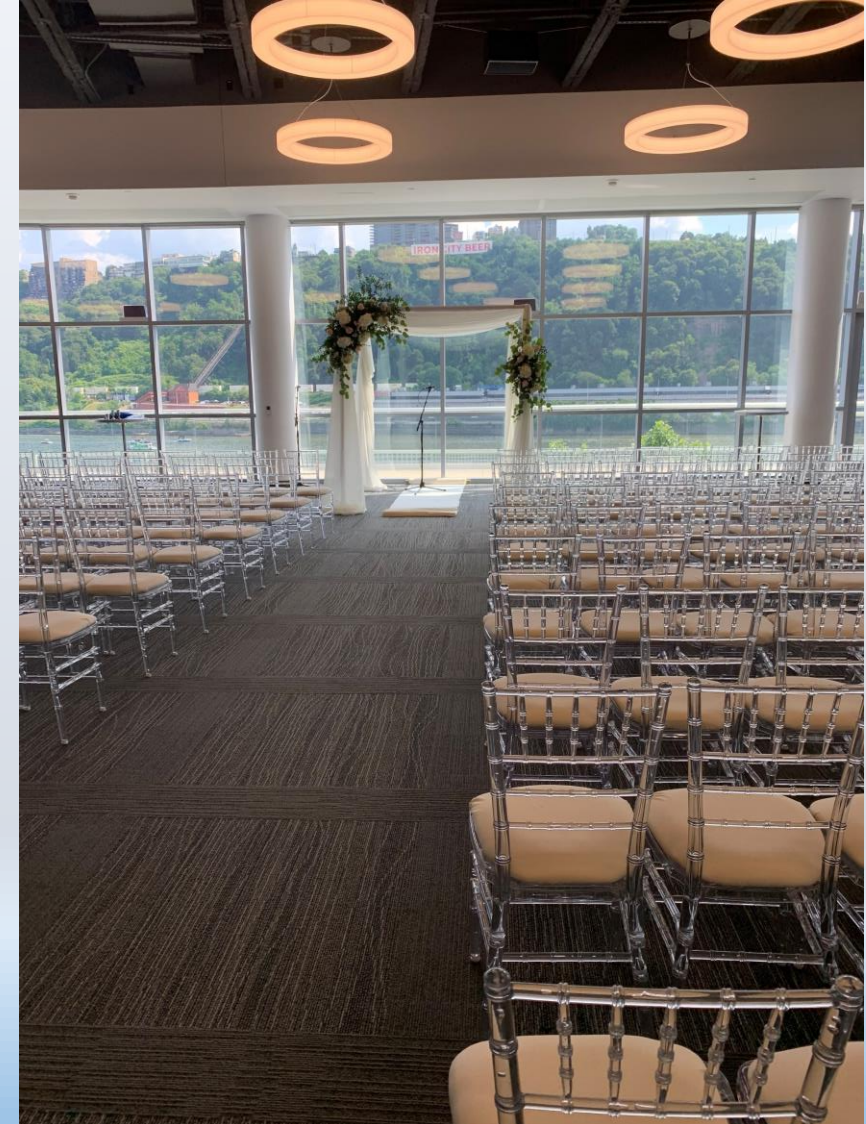

The view is just as gorgeous in the daytime as the nighttime!

# Not just for a reception...

Is your guest count 220 or less? Have your wedding ceremony in PointView Hall! Nothing is better than having a gorgeous backdrop as you say “I do” to the love of your life.

If you are hosting your ceremony and reception in PointView Hall, you need to rent pipe & drape to divide the room in half. We have great vendor recommendations that can provide some options.

# Buhl Planetarium

Your love is written in the stars—literally! Get married in our Buhl Planetarium, where guests can watch your out-of-this world nuptials. Our Planetarium team will help you customize the perfect ceremony.

Buhl Planetarium can seat up to 120 guests.

## Works Theater

Your love becomes electrified in Works Theater! Seating up to 100, it is the perfect space for couples who want to bring the science to their ceremony. Seal your vows with a kiss and firing off the Tesla Coil!

## Science Stage

For clients with a larger guest count (above 220-300), we have our classic, theater-style space, Science Stage. It is a blank canvas where couples can customize their ceremony to their style.

**Don't forget about Cocktail Hour!**

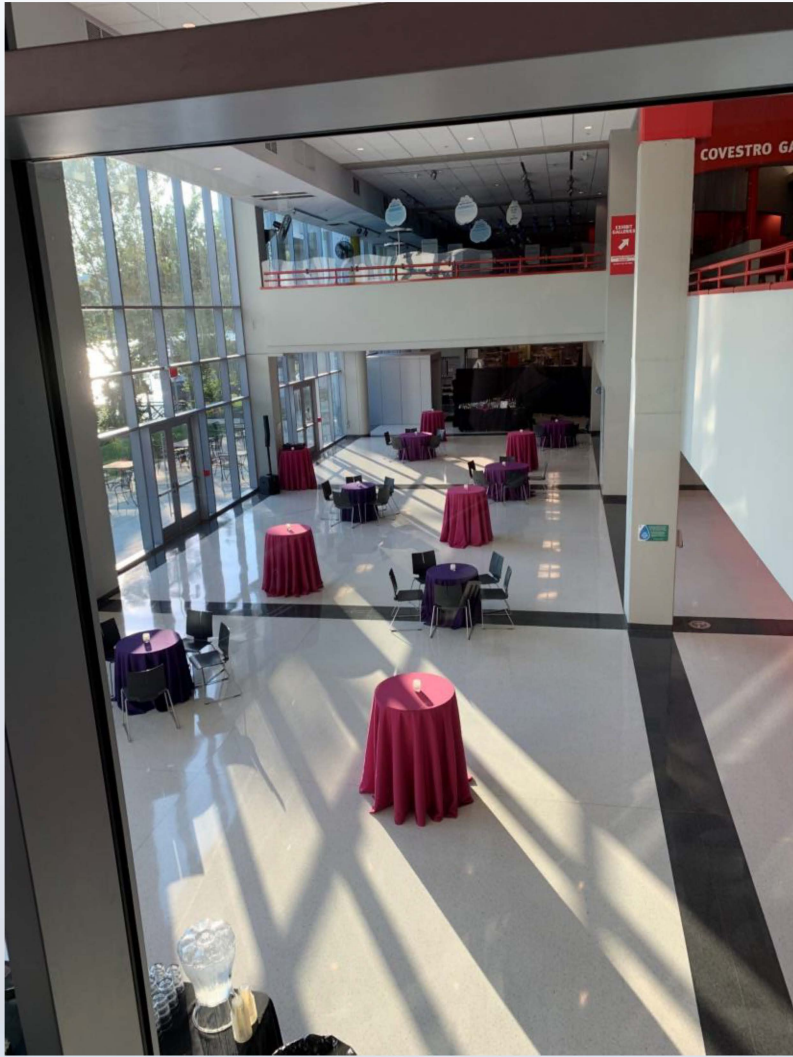

# RiverView Café & Terrace

This space is what we refer to as our “classic” cocktail hour space. It has floor-to-ceiling windows that provide a beautiful outdoor view, as well as an outdoor terrace where guests can enjoy the fresh air (weather permitting, of course!).

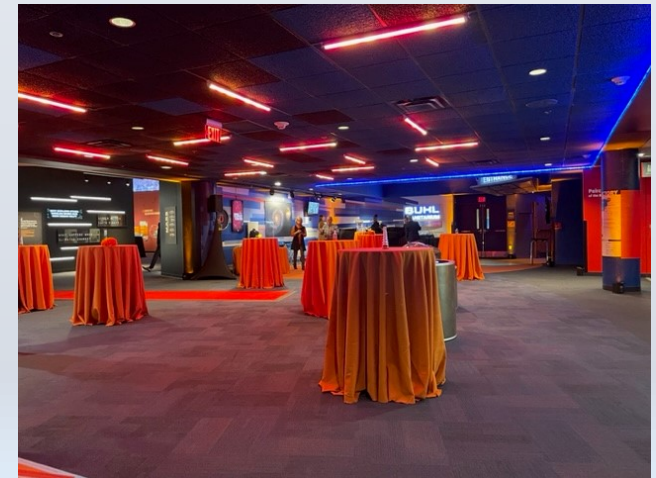

## 2<sup>nd</sup> Floor Exhibit Space

Our 2<sup>nd</sup> Floor Exhibit Space is brand NEW! You will be able to host your cocktail hour in the new Mars themed 2<sup>nd</sup> Floor Exhibit to learn how life would be like living on Mars.

# 4<sup>th</sup> Floor Exhibit Space

Another exhibit floor option for cocktail hour is our 4<sup>th</sup> Floor Exhibit Space, which includes one of our newest exhibit installations, Bricksburgh. Also located on our 4<sup>th</sup> Floor is Works Theater; Works Theater is cool & funky with customizable screens & track lighting!

# Works Theater & 4<sup>th</sup> Floor

Speaking of the 4<sup>th</sup> Floor Exhibit Space, smaller weddings (up to 100 guests) can be hosted in this space!

Delight your guests with liquid nitrogen cocktails, fog up your atmosphere to add drama, or fire up the Tesla Coil to literally make your hair stand on end. Within the Works Theater, audiovisual elements provide flexibility to accommodate any of your wedding needs.

# Culinaire International

CULINAIRE

We work with our exclusive in-house caterer, Culinaire International. Culinaire will work directly with you for all food, beverage and linen. Culinaire is happy to work with you regarding any menu customization, dietary needs or special request.

# Thank you!

We look forward to your special day at Carnegie Science Center!
