RENEE FROHNERT TO LECTURE AT CARNEGIE SCIENCE CENTER

DISCUSS NASA'S ARTEMIS MISSION IN LIVE IN-PERSON LECTURE

PITTSBURGH, Jan. 31, 2023— Renee Frohnert, business leader, entrepreneur, engineer, and influencer within the aerospace industry, is February's guest speaker at Carnegie Science Center's Café Sci. Ms. Frohnert, also a Pittsburgh native, is speaking about the Artemis I mission, which launched in November of 2022. "NASA's Artemis 1: Unlocking the Future" Café Sci presentation will take place in person at Carnegie Science Center as well as a livestream via Zoom on Feb. 13 from 7–9 pm. After the presentation, she will answer participants' burning questions about her work with NASA and beyond.

"We are thrilled to have Renee Frohnert as a guest speaker for this month's Café Sci," says Jason Brown, Henry Buhl, Jr., Director of Carnegie Science Center. "It is so exciting to welcome an accomplished woman in STEM to Carnegie Science Center."

Renee Frohnert is a Project PoSSUM Scientist-Astronaut Program Graduate and is training to go to space. She previously supported various space missions such as the NASA Artemis in which she designed critical electronics to send the first woman and next man to the Moon. Renee has been awarded numerous industry awards including the Lockheed Martin Engineering & Technology Award and Penn State Engineering Alumni Award. She enjoys teaching as a Visiting Lecturer at Cornell University's School of Engineering. Renee holds an MBA from the University of Southern California, a master's degree in Engineering from Cornell University, and a bachelor's degree in Engineering from Penn State University.

This Café Sci lecture is free to attend, but preregistration is required. Guests can [register here](#) to for the free on-site lecture. Café Sci is presented by PPG.

For more information, visit CarnegieScienceCenter.org or call 412.237.3400.

About Carnegie Science Center

Carnegie Science Center is dedicated to inspiring learning and curiosity by connecting science and technology with everyday life. By making science both relevant and fun, the Science Center's goal is to increase science literacy in the region and motivate young people to seek careers in science and technology. One of the four Carnegie Museums of Pittsburgh, the Science Center is Pittsburgh's premier science exploration destination, reaching more than 700,000 people annually through its hands-on exhibits, camps, classes, and off-site education programs.

Accessibility: Features for All

Carnegie Science Center welcomes all visitors. We work to assist visitors with disabilities in obtaining reasonable and appropriate accommodations, and in supporting equal access to services, programs, and activities. We welcome visitors in wheelchairs on the deck of our USS Requin (SS 481) submarine. Below-deck visits require full mobility. Hearing assistance devices are available for The Rangos Giant Cinema. Please ask when you buy your ticket.

Please note that requests for accommodations should be made at least two weeks prior to your visit. For specific questions about wheelchairs, strollers, or other programmatic or equipment needs, see the ticket counter located on the first floor of the main building or contact Customer Service at 412.237.1641 or info@carnegiesciencecenter.org. Please contact Carnegie Museums of Pittsburgh's Accessibility Coordinator with concerns regarding accessibility for visitors with disabilities at the museums. On weekdays, call 412.622.6578 or email accessibility@carnegiemuseums.org.

About Carnegie Museums of Pittsburgh

Established in 1895 by Andrew Carnegie, Carnegie Museums of Pittsburgh is a collection of four distinctive museums: Carnegie Museum of Art, Carnegie Museum of Natural History, Carnegie Science Center, and The Andy Warhol Museum. In 2017, the museums reached more than 1.4 million people through exhibitions, educational programs, outreach activities, and special events.
